June Bride

The first white Grandiflora. A Shepherd hybrid with vigor and glossy foliage. Always in bloom.

N. Pat. 1770. \$2.50 ea.; 3 or more \$2.20 ea.

THE BOSLEY NURSERY • MENTOR, OHIO

FLIRTATION (opposite). The color is fresh and sweet. Expanding buds show pink as the petals unfold to large, majestic blooms. The stems are strong and the foliage heavy and leathery like Peace, from which it was developed. *Pl. Pat. 1373.* \$2.50 ea.; 3 or more, \$2.20 ea.

KORDES PERFECTA (below). An intriguing combination of red, white and yellow. The plant is vigorous and produces an abundance of these large and very long-lasting, fragrant blooms. All gardeners and men in particular like big Roses, and this one has 65 to 70 petals. The edges of the petals look as if covered with lipstick. *Pl. Pat. 1604.* \$3.50 ea.; 3 or more, \$3.10 ea.

GAY GYPSY (below). A real oxblood-red; the petals are streaked or overlaid with an almost black, velvety sheen during cool weather. The plant is strong and the informal blooms keep coming, so that your garden always has color. Excellent for beds, borders and mass planting. *Pl. Pat. 783.* \$2.50 ea.; 3 or more, \$2.20 ea.

Flirtation

Everblooming Roses

AZTEC. Described and shown on page 5. \$2.75 ea.; 3 or more, \$2.40 ea.

BLANCHE MALLERIN. Page 6, 7. Frosty white buds and beautifully formed blooms. It is fragrant and strong growing. A very worthwhile white Rose. *Pl. Pat. 594.* \$2.00 ea.; 3 or more, \$1.75 ea.

BURNABY. An excellent light yellow; exhibition form. A new standard of perfection. *Pl. Pat. 1314.* \$2.50 ea.; 3 or more, \$2.20 ea.

CHARLOTTE ARMSTRONG (lower right). One of the most popular Roses of all time. Long, slender, rose-red buds, opening cerise-rose. Disease resistant and vigorous. Lots of blooms for cutting. \$2.00 ea.; 3 or more, \$1.75 ea.

CHRYSLER IMPERIAL. See page 4. \$2.50 ea.; 3 or more, \$2.20 ea.

CHUCKLES. Described on page 15. \$2.50 ea.; 3 or more, \$2.20 ea.

CONDESA DE SASTAGO. A gay Spanish Rose in bullfighter colors: vivid orange-scarlet and yellow bicolor. Blooms abundantly on a tall branching plant. \$1.75 ea.; 3 or more, \$1.55 ea.

CONFIDENCE. Described on page 5. \$2.50 ea.; 3 or more, \$2.20 ea.

COURTSHIP. Described on page 5. \$2.50 ea.; 3 or more, \$2.20 ea.

CRIMSON GLORY (right). Glorious in form, color, performance and fragrance. Rich velvety crimson, perfect for cutting. One of the all-time great Roses. \$1.75 ea.; 3 or more, \$1.55 ea.

DOROTHY ANDERSON. One of the new big pink Roses. Supply is limited. \$3.00 ea.; 3 or more, \$2.65 ea.

DR. DEBAT. A large Rose for the show table. Beautifully formed buds of rich pink tinted salmon, opening to high-centered flowers with heavy petals. *Pl. Pat. 961.* \$2.25 ea.; 3 or more, \$2.00 ea.

EMILY. This is one of the finest pink Roses ever developed. Sweetly fragrant, very full-petaled and perfectly formed, soft rose-pink. The supply can't catch up with the demand for two or three years. Please, not more than 3 to a customer. \$2.50 ea.; 3 rate, \$2.20 ea.

FANTAN. THE ROSE THAT IS ALMOST BROWN. One of the forerunners of new colors to come. Sometimes described as burnt-orange, Chinese coral or soft tan. Try it for a new gardening thrill. *P.A.F.* \$3.00 ea.; 3 or more, \$2.65 ea.

FLIRTATION (on opposite page). \$2.50 ea.; 3 or more \$2.20 ea.

FRAU KARL DRUSCHKI. An outstandingly vigorous white Rose that has survived the competition of new kinds for half a century. \$1.75 ea.; 3 or more, \$1.55 ea.

GAIL BORDEN. Bottom page 6. One of the BIG full Roses that are so popular now. It opens to blooms sometimes 5½ in. across, with as many as 65 petals. The soft blending colors of this Rose make it useful in almost any color scheme. One of the new German Roses. *Pl. Pat. 1618.* \$3.00 ea.; 3 or more, \$2.65 ea.

GAY GYPSY (on opposite page). *Pl. Pat. 783.* \$2.50 ea.; 3 or more, \$2.20 ea.

GOLDEN DAWN. A dependable golden yellow flushed with red. Strong, disease-resistant plant that will really produce a lot of bloom; very popular. \$1.75 ea.; 3 or more, \$1.55 ea.

GOLDEN WINGS. See page 15. *Pl. Pat. 1419.* \$2.50 ea.; 3 or more, \$2.20 ea.

GOOD NEWS. Extra-large blooms with as many as 60 petals. Pink in the summer but definitely buff-apricot in the fall. \$1.75 ea.; 3 or more, \$1.55 ea.

HELEN TRAUBEL. Page 7. Elegant is the word for this Rose! In color it is clear porcelain-pink with a distinct apricot base. In size and form it is outstanding. Tall, strong plants blooming well all season. It is without question one of our finest Roses. *Pl. Pat. 1028.* \$2.75 ea.; 3 or more, \$2.40 ea.

WHITE KNIGHT (below), is truly a knight in shining armor—a champion of white Roses. Every garden needs white in it to accent and sharpen the other colors, so be sure to include this big growing and big blooming variety. Blooms are usually borne singly on stiff stems. You will find the blooms long lasting in the garden and particularly when cut for arrangements. Hardiness and disease resistance are qualities that make this new Rose valuable to you. *Pl. Pat. 1359.* \$3.00 ea.; 3 or more, \$2.65 ea.

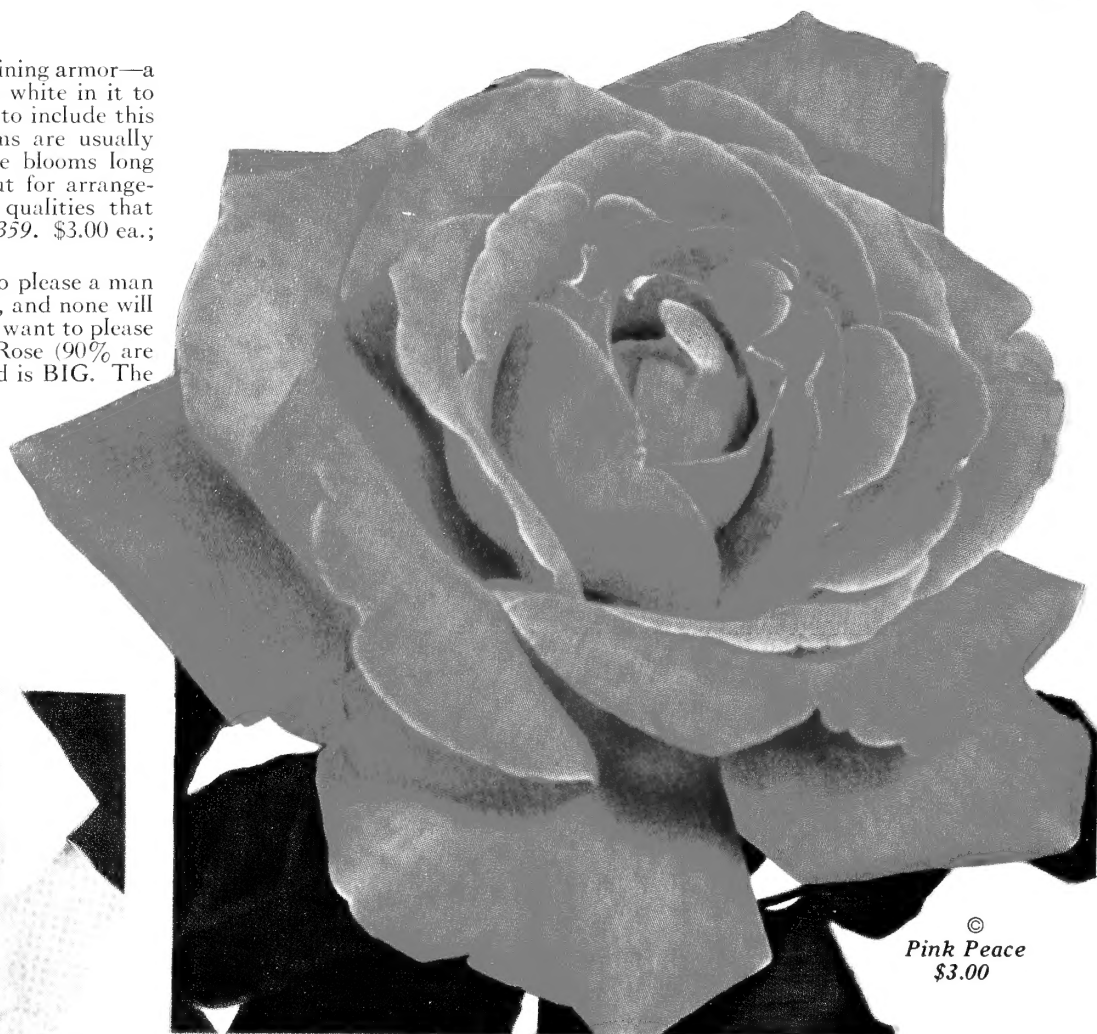

CHRYSLER IMPERIAL (below). If you want to please a man then buy him a big red Rose (98% prefer them), and none will suit him better than Chrysler Imperial. If you want to please a woman with black hair, then buy her a red Rose (90% are fond of them). Chrysler has 40 to 50 petals and is BIG. The color is rich and deep; the form is good; the fragrance is spicy and the plant is vigorous and disease resistant. It has held its popularity for a number of years, which is proof enough of its worth. *Pl. Pat. 1167.* \$2.50 ea.; 3 or more, \$2.20 ea.

PINK PEACE (above). The world-renowned Rose Peace has been responsible for many good offspring, and Pink Peace has been one of the very worthwhile ones. The color is different and is accurately shown. The plant has the characteristics of its parent, which in itself should recommend it to you. It has 60 to 65 petals and is never out of bloom. You'll like its definite true Rose fragrance. *Pl. Pat. 1759.* \$3.00 ea.; 3 or more, \$2.65 ea.

PEACE (below) produces huge plants with an abundance of long-stemmed specimen buds, showing watermelon-pink picotee edges, which melt into pink flushed golden blooms of enormous size. The most publicized Rose with the greatest number of awards in history. Peace has been used extensively for hybridizing and has given her offspring many good characteristics, including a wonderful range of colors as represented by such roses as Pink Peace, Flirtation and Courtship. *Pl. Pat. 591.* \$2.50 ea.; 3 or more, \$2.20 ea.

AZTEC (right). Indian war paint was never as bright flaming scarlet as the color of this Rose. The color will pull you to it clear across your yard. The plants are medium in height and somewhat spreading in habit. *Pl. Pat. 1648.* \$2.75 ea.; 3 or more, \$2.40 ea.

STERLING SILVER

(below). Here indeed, is a Rose to fire the artist's imagination and to challenge the flower arranger. Exotic but not bizarre; a soft silver-lavender that's positively fascinating under artificial light. Try this new thrill in Rose colors. *Pl. Pat. 1433.* \$3.00 ea.; 3 or more, \$2.65 ea.

SUTTER'S GOLD. A color so intense that there is no fading it out; so deep that it has difficulty staying a yellow instead of an orange-colored Rose. No need to pamper this one because it has V-I-G-O-R. *Pl. Pat. 885.* \$2.25 ea.; 3 or more, \$2.00 ea.

LADY ELGIN. An aristocrat among the yellow Roses; the intense apricot and orange combination of color holds from the tight bud through to the falling bloom. It has form and substance to delight any Rose grower. *Pl. Pat. 1469.* \$2.50 ea.; 3 or more, \$2.20 ea.

LADY TRENT. A high-centered, fragrant coppery orange. This is truly a collector's item. \$3.00 ea.; 3 or more, \$2.65 ea.

LOVE SONG (lower right). Bicolor Roses are always exciting. The watermelon-pink of this one contrasts vividly with the bright yellow reverse side of each petal, and there are upwards of 100 of these petals. The colors are even more intense during the cool months. *Pl. Pat. 1360.* \$2.50 ea.; 3 or more, \$2.20 ea.

LOWELL THOMAS. This Rose is a good deep solid yellow from the tight bud to the open bloom. It has good form and substance, which makes it a good exhibitor's Rose. Try winning ribbons with it. *Pl. Pat. 595.* \$2.25 ea.; 3 or more, \$2.00 ea.

MCGREDY'S SCARLET. Long, rose-red buds with an orange base; large, double, high-centered flowers. \$1.75 ea.; 3 or more, \$1.55 ea.

MICHELE MEILLAND. See page 2. \$2.50 ea.; 3 or more, \$2.20 ea.

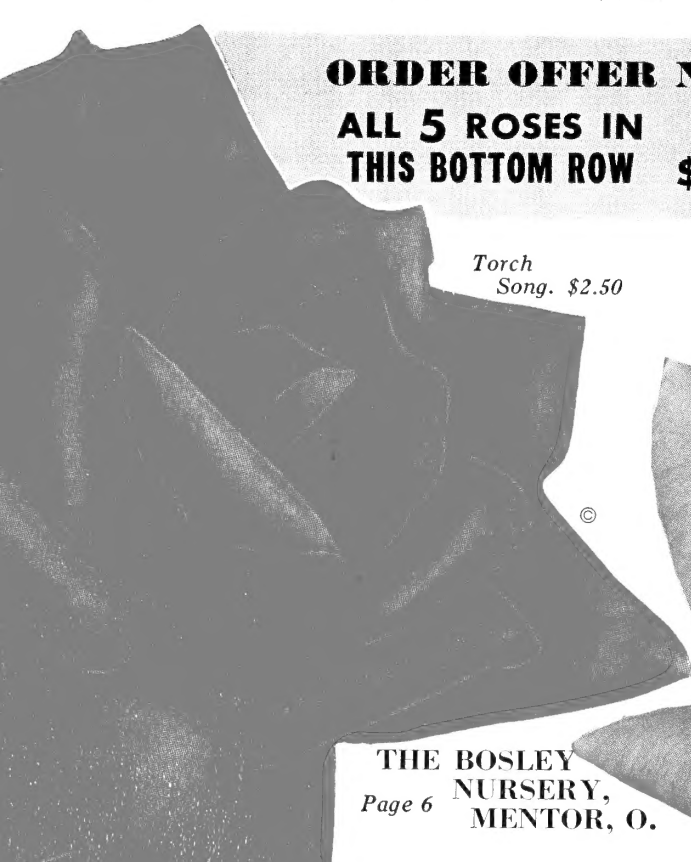

MIRANDY (upper left). The bloom is big; the color goes from crimson to deep rich wine and the fragrance is heavy and intoxicating. We admire this variety and recommend it in every way. *Pl. Pat. 632.* \$2.25 ea.; 3 or more, \$2.00 ea.

MISS FRANCE. This Parisienne is the flashiest orange-cinnabar we have ever seen. We are not only SOLD OUT but we are booking orders for the Fall 1960 crop. Price will be \$3.00 ea. straight.

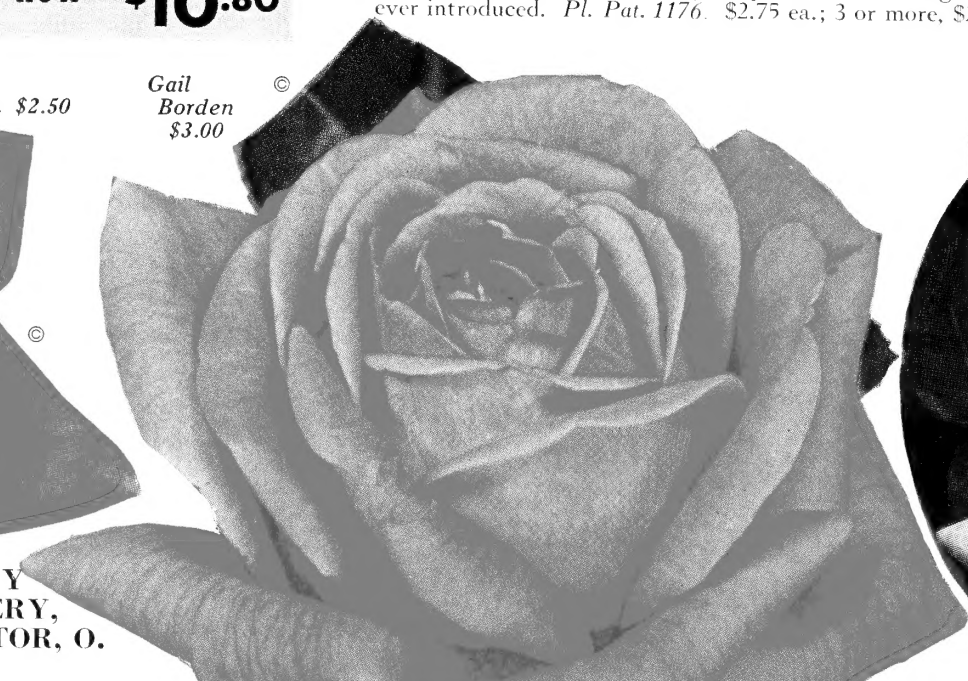

MME. COCHET-COCHET. A charming coral-pink that has given outstanding value to everyone. It's an exhibitor's, an arranger's and a dirt-gardener's Rose. A must. \$1.75 ea.; 3 or more, \$1.55 ea.

MOJAVE (above). Glowing sunset-orange. A free-blooming Rose with tapering buds, which is perhaps the finest orange-colored Rose ever introduced. *Pl. Pat. 1176.* \$2.75 ea.; 3 or more, \$2.40 ea.

THE BOSLEY NURSERY
MENTOR, OHIO

Dear Friends and Customers;

So many of you have followed the activities of our family through these messages and keep asking about certain ones of us that I hesitate to stop writing along these lines. Ours is a big family enterprise and even the grandchildren are a part of this project.

With two capable sons helping to run the business, we are making tremendous strides. It's possible now for Mom and Dad (that's me) to slip away to enjoy ourselves but at the same time have an opportunity to search for new plant material.

When we were in Europe checking new Roses and Rhododendrons, we visited our daughter Virginia who was with her husband stationed in France.

Young folks like to have secrets — you guessed it; our latest, a grandson, was born prematurely in France (doesn't that make me a French grandfather?) and when two days old was flown to Germany by helicopter, so that he could have specialized medical care. You can't tell me that these young folks don't belong to the "Jet Age." Troubles plagued the little fellow until he flew to America with his mother. Now they are a healthy and happy family back home again and the count on grandchildren stands at five.

Then too you will be hearing about some French Roses, perhaps in the next catalogue because it takes time to build up a stock.

We at Bosleys extend you a cordial invitation to stop and see us. We are located on U.S. route 20 just 25 miles east of downtown Cleveland and everyone who travels passes our door sooner or later. If you drive via turnpikes, you should get off at Ohio #13 and drive straight north for one hour to route 20 and then ask for Mentor and Bosleys. You can learn first handed about our new methods, new varieties and new techniques.

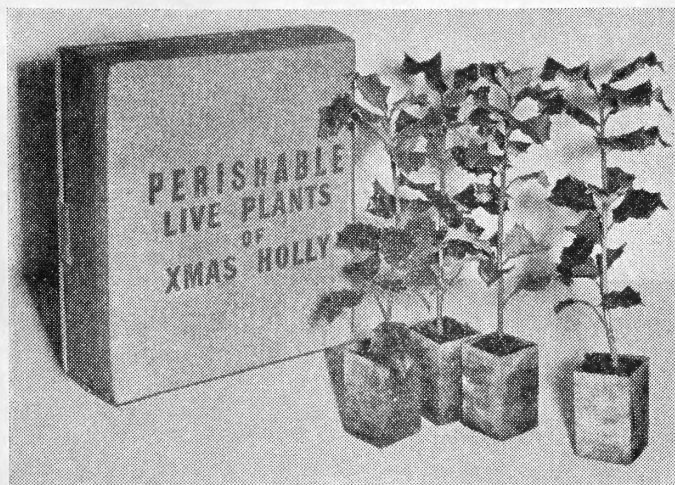

You can even inspect our new plastic greenhouse and new styrofoam storage house which have been written up in the trade journals.

Anyway make it a point to come.

Cordially

Paul R. Bosley Sr.

Peppy Sizes American Holly

AZALEA KAEMPFERI HYBRIDS (Japanese Azaleas). These marvelous hardy evergreen Azaleas are available as named varieties in a range of colors from pink and red to white and lavenders. See color illustrations and descriptions page 14. Priced below.

JAPANESE (EVERGREEN) HOLLIES

ILEX CRENATA CONVEXA. A low, compact-growing type with round leaves that curve backward. It is especially pretty and glistens like beads when wet with dew or rain. Use as a specimen, edge or hedge. Priced below.

ILEX C. HETZI. The new type with larger convex evergreen leaves. Here is a variety that grows more quickly into a hedge. See illustration opposite. Priced below.

ILEX C. ROTUNDIFOLIA. This is the round-leafage, flat-leaf type which can be easily clipped into perfect cones. Priced below.

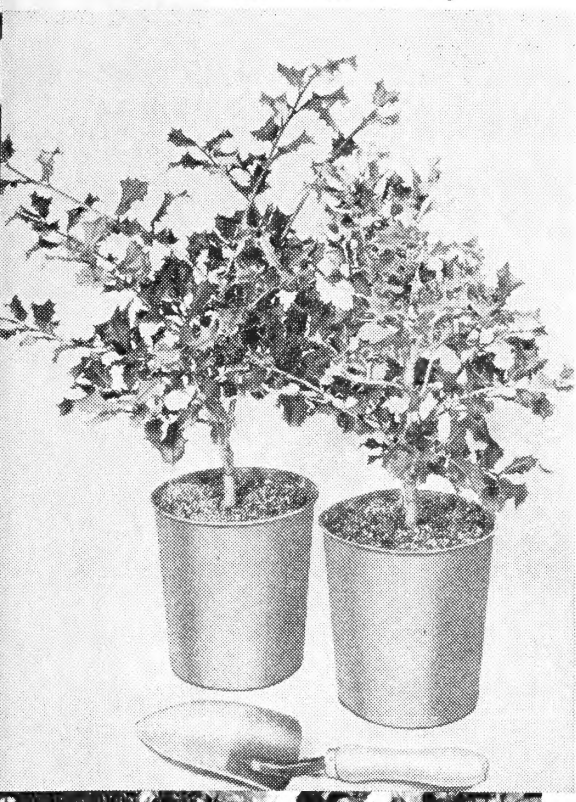

ILEX C. REPANDENS. A new and unusual little-leaf type that hugs the ground in a little mound. Interesting. Priced below.

PIERIS JAPONICA (Japanese Andromeda). An acid-loving flowering broad-leaf evergreen with four definite seasons of charm: Spring with its bloom; Summer with its colorful new growth; Fall with its buds and different coloring and Winter with evergreen foliage. Priced below.

REDI-GROWN PLANTS

REDI-GROWN PLANTS transplant perfectly—are small landscaping sizes.

REDI-GROWN PLANTS are ready to "zoom" in the freedom of open ground.

REDI-GROWN PLANTS never stop growing while coming to you.

ACER PALMATUM ATROPURPUREUM (Grafted Japanese Red-leaf Maple). This is the true shrubby-growing ornamental tree with blood-red leaves through most of the summer. Ours is the finest strain, but it must be planted in full sun to develop maximum color. A choice plant that is rather hard to find in today's nurseries. Bushy 8 to 12-in. plants, \$3.75 ea.

AZALEA KAEMPFERI HYBRIDS. Described and illustrated page 14. These plants are the bushy 10 to 12-in. blooming size. For a big display of color, use Azaleas in great masses. They generally bloom best in full sun, but the Kaempferi Hybrids do very well in light shade. \$3.50 ea.; 3 or more, \$3.25 ea.

ILEX OPACA (Christmas Holly illustrated on page 14 and on the left). These are stocky little plants which are growing in gallon-size containers and are now ready for planting in a permanent spot. These will soon begin to bear red fruit. Only the female plants bear the red berries at Christmas, but at least 1 male is necessary for pollination. We suggest planting 2 females and 1 male. They should be in the same general area but need not be planted close together. \$3.95 ea.; 3 or more, \$3.50 ea.

MAGNOLIA SOULANGEANA (Japanese Magnolia or Tulip-tree). These hardy Magnolias are not to be confused with the Magnolia of our South. This is a very hardy deciduous and shrubby small tree that covers itself in the very early spring with enormous pink, tulip-like flowers. This has always been considered a difficult tree to get established, but with these container-grown plants results are always assured. Plants range from 15 to 24 in. high. \$3.75 ea.

PICEA PUNGENS ROYALI (Royal Blue Spruce). This is the bluest blue Spruce that we know of today; many unmistakable degrees bluer than Koster or Moerheimi. This blueness of color can only be maintained by grafting from true stock trees. This shippable size will be an ungainly-looking plant, but these beautiful plants start life that way. Five years' work has gone into these already. 10 to 12 in., somewhat branched, \$5.75 ea.

PIERIS JAPONICA (Japanese Andromeda). Described above. This choice ericaceous evergreen is also available in this larger 10 to 12-in. size. It is an ideal evergreen for foreground or foundation planting. \$3.50 ea.; 3 or more, \$3.25 ea.

OF THE NEW
FLAVORS

MARGO KOSTER. (ex. d.) Pretty, ball-shaped, soft orange-colored blooms. Extremely popular. \$1.75 ea.; 3 or more, \$1.55 ea.

NIGGER BOY. (m.) Page 8. A dark velvety maroon that glistens. Really like a $\frac{2}{3}$ size Crimson Glory. Excellent to use wherever you want a splash of color. \$1.75 ea.; 3 or more, \$1.55 ea.

PINOCCHIO. A fine salmon-pink fading to salmon-flesh as the blooms unfurl. A popular sort and parent of many of our present-day varieties. \$1.75 ea.; 3 or more, \$1.55 ea.

RED PINOCCHIO. (m.) Rich velvety carmine form of Pinocchio. Cup-shaped, open blooms. Vigorous and free flowering. *Pl. Pat. 812.* \$1.75 ea.; 3 or more, \$1.55 ea.

ROSE ELFE. (m.) Page 8. Imagine pink camellias growing on a Rose bush and you have a description of Rose Elfe. Charming; strong, prolific and long lasting when cut. \$1.75 ea.; 3 or more, \$1.55 ea.

SPARTAN. (m.t.) Lower left. A vibrant orange-scarlet that seems to breathe fire. The plant has vigor and stamina, producing quantities of fragrant blooms all summer, right up to winter snows. *Pl. Pat. 1357.* \$2.50 ea.; 3 or more, \$2.20 ea.

TEXAN. (t.) Left. So big, so bright, so red, so vigorous and so much like Texas. It really is so much of everything that it hardly seems like a Floribunda, but you will like it. *Pl. Pat. 1471.* \$2.50 ea.; 3 or more, \$2.20 ea.

THE FAIRY. (m.d.) Page 8. This Rose hugs the ground rather tightly and is always covered with seashell-pink rosettes about the size of a quarter. Older plants have been known to have 500 to 600 blooms on at a time. Perfect for a spot that needs a ground cover. \$1.75 ea.; 3 or more, \$1.55 ea.

TOM TOM. (m.) Here is a free-blooming, rather large, dark pink Rose which makes a good splash of color. New. *Pl. Pat. 1671.* \$2.50 ea.; 3 or more, \$2.20 ea.

VOGUE. (m.) Upper right. The unusual cherry-coral-red color and the beautiful shape of the flower, with its carnation scent, all make you want to linger with this Rose. The quantity of blooms may not be as great but the quality is tops. *Pl. Pat. 926.* \$2.00 ea.; 3 or more, \$1.75 ea.

WHITE BOUQUET. (m.d.) A good color break among the Floribundas. Every garden needs white to accent the other colors. An award winner. *Pl. Pat. 1415.* \$2.50 ea.; 3 or more, \$2.20 ea.

BLAZE (lower left). The best-known and most widely planted of all climbing Roses of the past. Ideal pillar-like habit of growth. We have developed the repeat-blooming characteristics to a high degree by bud selection. \$1.75 ea.; 3 or more, \$1.55 ea.

BLOSSOMTIME (pictured left and on back cover). The greatest of the new everblooming climbers. *Pl. Pat. 1240.* \$2.50 ea.; 3 or more, \$2.20 ea.

CLIMBING CHRYSLER IMPERIAL. The perfection of Chrysler Imperial (illustrated on page 4) in climbing form. We suggest planting in a protected place. *Pl. Pat. 1528.* \$2.75 ea.; 3 or more, \$2.40 ea.

CL. GOLDLOCKS (below right). A climbing sport of Goldilocks illustrated on page 9. *Pl. Pat. 1090.* \$2.50 ea.; 3 or more, \$2.20 ea.

CL. PEACE. A counterpart of the bush form illustrated on page 4. Superb when established. *Pl. Pat. 932.* \$2.25 ea.; 3 or more, \$2.00 ea.

DON JUAN (lower right). We have fallen in love with this deep rich velvety red, continuous-blooming climber. *Pl. Pat. 1864.* \$3.00 ea.; 3 or more, \$2.65 ea.

GLADIATOR (lower right). The red of this climber has a slight cerise tone that gives it a brilliance different from other reds. *Pl. Pat. 1524.* \$2.75 ea.; 3 or more, \$2.40 ea.

EDGED WITH FLORIBUNDAS

FUSILIER. (m.t.) Below left. Dark red buds open to large blooms of flaming orange-scarlet. The plant is upright and full. A very free and continuous bloomer. *Pl. Pat. 1709.* \$2.50 ea.; 3 or more, \$2.20 ea.

GOLD CUP. (m.) Below. A large, unfading yellow that blooms in clusters on a sturdy plant. Nice form and fragrance. Vigorous and disease resistant. *Pl. Pat. 1683.* \$2.50 ea.; 3 or more, \$2.20 ea.

HEAT WAVE. (m.) Right. The color is so hot it is hard to describe; let's call it Chinese red shaded persimmon and ruby. Tall and vigorous. *Pl. Pat. 1786.* \$2.75 ea.; 3 or more, \$2.40 ea.

IVORY FASHION. (m.) Right. There are so few whites, but here is one that rates with the best of the whole Floribunda group. Slender buds open to large, firm, heavy-textured blooms of ivory white. Sturdy stems carry candelabras of bloom which last for a long time, making this a most valuable addition to your garden. This is also an award winner. In fact, all four of the Floribunda Roses on this page are winners, so you will be keeping good company with this group in your yard. *Pl. Pat. 1688.* \$2.75 ea.; 3 or more, \$2.40 ea.

\$2.50*

BUCCANEER. Upper left. The name suggests a figure rough, rugged and bold—and oh yes, gold. The Rose is all of those things. The buds are long and tapering and bright clear yellow. The open blooms are up to 4½ in. across and held firm and strong. Every Grandiflora listed here is worth having. *Pl. Pat. 1119.* \$2.50 ea.; 3 or more, \$2.20 ea.

CARROUSEL. Upper right. "The first time I ever saw this Rose it was growing as the most beautiful hedge imaginable and covered with beautiful red Roses.

*June
Bride
\$2.50*

I shall never forget that sight." *P.R.B.* When the cool days of fall come, this Rose tries to outdo itself and produces the most gorgeous, especially dark red Roses on very long stems. No greenhouse - grown Roses could be as beautiful as these fall blooms. *Pl. Pat. 1066.* \$2.00 ea.; 3 or more, \$1.75 ea.

Things that were unheard of yesterday are commonplace today. T.V., Jets, Space Ships and Rockets are everyday "play words" for today's children. Even our vocabularies are changing ever so rapidly. The whole field of horticulture has been caught up in the swift stream of changes. For example, Floribunda Roses were so very new a few years ago and even now we are focusing our interest on the new super Grandiflora Roses. We feel that the rapid changing of things present is a prediction of the things to come, but the Grandifloras definitely belong to the Jet Age.

EL CAPITAN. Bottom. In the center of Yosemite National Park stands a most impressive sight—El Capitan, a mountain of solid rock that rises straight up from the floor of the valley for a sheer 3,000 ft. Rose El Capitan is symbolic of that tower of strength and majestic beauty. This red Rose is superb. *Pl. Pat. 1796.* \$3.00 ea.; 3 or more, \$2.65 ea.

GOLDEN GIRL. Lower right. What a name! What a Rose! What a plant! The color is so bright that you can pick it out clear across a field and so profuse that you wonder how a plant can produce so many superb blooms; to be sure, it has to be a sturdy plant to do it. It is well pictured for color and size, but we didn't dare put it all on the page. This new variety will be with us for many years. *P.P.A.F.* \$3.00 ea.; 3 or more, \$2.65 ea.

JET AGE ROSES

This is a wonderful age where the ability of man to cover distances rapidly, has multiplied his efficiency and has increased both his work time and his play time. Last year we looked over our own new Rhododendron Hybrids and with an overnight hop were comparing new hybrids in England while they were in their prime. Budwood of new Roses reaches us so quickly that by the third day new kinds have been grafted into our stocks here in America, and new varieties which we produce are put into distant growing fields equally fast. T.W.A., who fly the 707 Jets, have had a part in helping us bring the Jet Age Roses into your garden sooner and perhaps help you get home sooner to enjoy them.

JUNE BRIDE. Lower left. This is The first white Grandiflora yet developed. It sometimes blooms in clusters so large as to suggest a wedding bouquet. Sometimes there is a hint of cream in the tight buds but they open with beautiful form and ample substance. Train it for height, prune it for bushiness and cut it for continuous enjoyment. Any way you look at it, June Bride is a joy in your garden. In the South it could be pruned and trained into a short pillar, and when well grown in the North be breast height and about as big around as two people touching finger tips. It is versatile and beautiful. *Pl. Pat. 1770.* \$2.50 ea.; 3 or more, \$2.20 ea.

MONTEZUMA. Right. Big, stately, well-formed flowers of brilliant rosy salmon are always in bloom on this extremely vigorous plant. Orange-scarlet or perhaps cinnamon-red would be a better word picture of this strange color. It is not unusual to see plants 3 ft. broad by 3 to 4 ft. high. In arrangements, its color will blend with any of the orange-reds. *Pl. Pat. 1383.* \$2.75 ea.; 3 or more, \$2.40 ea.

QUEEN ELIZABETH. Lower left. The color is a fine clear pink and the beautifully formed blooms come on the plant in lovely candelabras. The plant produces these beautiful flowers continuously and profusely. Everyone stops to admire this Rose and falls in love with it. It has proved itself to be one of the really great Roses. *Pl. Pat. 1259.* \$2.50 ea.; 3 or more, \$2.20 ea.

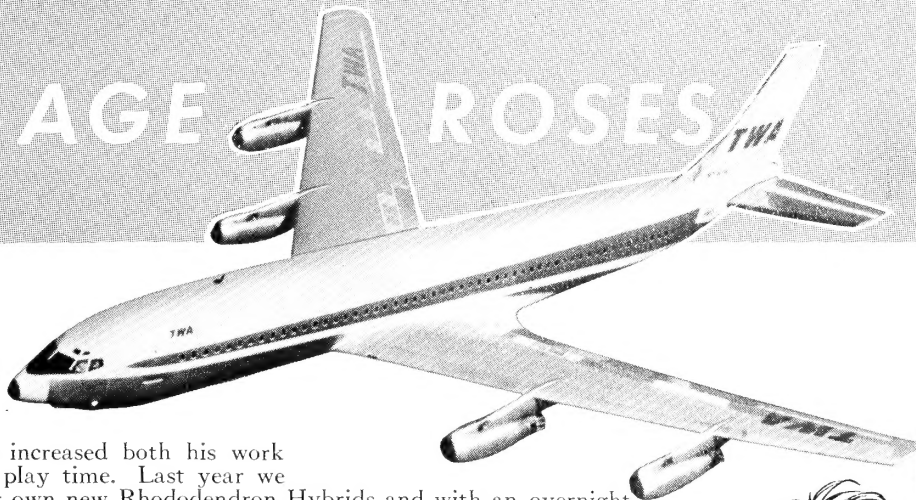

STARFIRE. Not pictured. This is the newest member of the magic circle of Grandifloras. The plant is tall and vigorous and its 4-inch blooms are long lasting when cut. The color is different also, being a luminous currant-red. This is also an award winner. When you buy these Grandifloras you are keeping good company, because in our estimation they are tops. *Pl. Pat. 1742.* \$3.00 ea.; 3 or more, \$2.65 ea.

NORTHLAND

PLANTS

GOLDEN WINGS (right) is NEW, EXOTIC and DIFFERENT in every way.

This Rose will provide color all summer long, being covered with super-sized, golden yellow, 5-petaled blooms with beautiful red stamens. The apple-green foliage contrasts beautifully with the superb flowers to create a floral masterpiece for your table or competitive arranging. Your whole idea about Roses will change when you grow Golden Wings. It can be pruned and kept small for bed or dooryard planting, or allowed to grow into a sizeable everblooming shrub. Never before has there been an *absolutely* hardy everblooming shrub for northern gardens. Try it for a hedge or perhaps just for color in your shrubbery border. It has reigned as "Queen of the Show"; it has also received one of the highest ratings ever scored by a Rose, and is an A.R.S. Gold Medal winner. Don't miss a new experience with Roses—don't miss Golden Wings. Pl. Pat. 1419. \$2.50 ea.; 3 or more, \$2.20 ea.

"Golden Wings, June Bride and Blossomtime are tremendous gifts to the world of roses."

CHUCKLES, "The Happy Rose" (below).

This Rose even adds brightness to the sunshine. It is a luminous, Da-Glo pink that can't be properly illustrated with printer's ink. The plant is vigorous and often blooms in enormous clusters or panicles as large as a football. The plant doesn't necessarily grow tall unless trained and is perfect for covering a bank, a low wall, or for the foreground of your shrubbery border. Here is a nearly carefree Rose, blooming in a new shade of pink, to a size never dreamed of before. Try it with Golden Wings. Pl. Pat. 1608. \$2.50 ea.; 3 or more, \$2.20 ea.

WINS MORE BLUE RIBBONS
THAN ANY OTHER CLIMBER

Blossomtime

MORE CONTINUOUS BLOOMING
THAN ANY OTHER CLIMBER

We sell more Blossomtime than any other one Rose and more than all other climbers combined. It is the most fabulous of all continuous-blooming climbers, with a fine clear color and refreshing as a breath of spring. It has ample size, exquisite form and definite fragrance. Blossomtime is always a winner at the Rose shows, fall or spring. "I have never seen a show where it was exhibited that it didn't win an award."

P. R. B.

Why shouldn't it be good, being developed from two such great Roses as Crimson Glory and New Dawn? It will nicely fill the space of a doorway, or cover a section of fence and spend its energy in blooming for you.

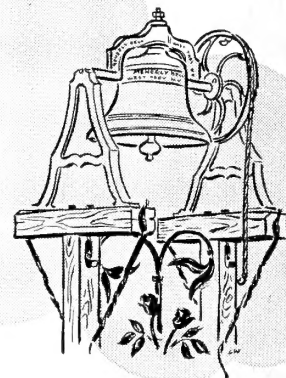

Oftentimes you can cut blooms with the first snow of winter covering them. Its exhibition form makes it "a natural" for the flower arranger. Everyone loves Blossomtime. *Plant Pat. 1240*

\$2.50 ea.; 3 or more, \$2.20 ea.

LETTER ON FILE IN OUR OFFICE

When the Mormons made their trek across our country they settled for a number of years at Kirtland, Ohio, which is Mentor's neighboring village. Here in a rolling countryside they built a beautiful Temple. Their first Temple bell with a historic date cast into it now stands outside our office with Blossomtime climber surrounding it with all-summer beauty.
